Welcome

Immerse was founded in 2012 with the mission of providing high school students with unparalleled educational experiences that would prepare them for the future. Fast-forward a decade and we've delivered over 3000 programmes and have inspired thousands of students from over 125 nationalities to reach their full potential - both academically and socially. At Immerse, we are proud of our commitment to the highest standards of education and to delivering unique experiences that stimulate curiosity and widen perspectives.

We're committed to seeing students grow in knowledge, confidence and curiosity by participating in our programmes. With each year we find that our students are motivated and challenged by the extensive academic and social enrichment programmes which we provide.

In the following pages, you'll be able to read our manifesto and gain a clear understanding of how our online and residential programmes embody these values. We're thrilled that you're considering Immerse programmes for academic development, and look forward to making a difference to students' futures.

A handwritten signature in black ink that reads "S. Stevens". The signature is written in a cursive, slightly slanted style.

Our Manifesto

The Immerse Education Manifesto aims to represent the values we adopt, not only in an educational context but as an organisation in general. These values are at the heart of what we do. We ensure that every student leaves our programmes with new-found expertise and enthusiasm to plan the next stages of their education with confidence.

KNOWLEDGE IS EMPOWERMENT

Believe in yourself. Our aim is to encourage confident learners. We achieve this by providing participants with the knowledge and support that will empower them to achieve their full potential.

CURIOSITY FUELS ACHIEVEMENT

Replace fear with curiosity. We are dedicated to creating a stimulating classroom environment for our participants, through engaging curricula and inspirational tutors.

EDUCATION IS MORE THAN EXAMS

Think outside the box. Learning is about exploration and creativity, not box-checking. We aim to create engaging curricula that focuses on a holistic understanding of subjects.

THERE IS NO GROWTH WITHOUT CHALLENGE

Change yourself constantly. We instil a growth mindset in our participants and staff by creating an atmosphere where trial and error are celebrated.

PERSONAL DIFFERENCES CREATE COLLECTIVE STRENGTH

Broaden your horizons. We believe that different perspectives encourage a cooperative and dynamic environment. We promote respect and champion collaboration.

PATHWAYS TO SUCCESS ARE UNIQUE

Embrace your individuality. We believe everyone has their own learning style and perspective and, encourage participants to celebrate their individuality, while also providing individualised support to students.

RESIDENTIAL EDUCATION MODELS

Academic Insights

- Oxford & Cambridge
- Ages 13-15 & 16-18

Our most traditional, academically challenging and well-known programme based in Oxford and Cambridge.

Live and learn like an undergraduate at one of the most famous universities in the world.

Why choose Immerse Education?

SUPERIOR CURRICULUM

Our programmes are designed by expert tutors, and advanced academic content is adapted to the interests and ability of the individual. This means that every participant is challenged to explore their own potential.

EXPERT TUTORS

Our exceptional academic tutors are at the heart of our academic programmes, with extensive experience teaching students at universities such as Cambridge, Oxford and Harvard.

INSPIRING SURROUNDINGS

Our courses take place in world-famous institutions such as Oxford and Cambridge University colleges, the University of London and the University of Sydney in Australia.

ACCREDITATIONS & AWARDS

Immerse Education was recognised by Her Majesty The Queen and received the prestigious Queen's Award for Enterprise, and we're also accredited by the British Accreditation Council.

SUPPORTIVE MENTORS

Our team are on hand to support participants 24-hours a day. Mentors share their own experience studying at top universities with inspirational energy while also creating a fun, safe environment in which participants can thrive.

FRIENDSHIPS & NETWORKING

During their time on the programme, participants form lifelong friendships with like-minded participants. Our engagement with Alumni through LinkedIn and newsletters ensure that they can continue to connect with us and each other.

CLASS SIZES

With a maximum of 10 participants, our small class sizes facilitate interactive learning, collaboration and debate as participants approach academically challenging content.

TEACHING METHODOLOGY

Academic sessions are collaborative, thought-provoking and dynamic. Participants explore theory within practical contexts and discuss the ideas behind the theory whilst debates challenge students to embrace new perspectives.

“ Immerse is an experience that I could never have imagined. So far it has been eye-opening, fun, challenging and so welcoming. I know it might sound cliché, but this flower-filled college has become a home to me and I can't think of leaving in just a week. ”

— TEODORA, 2022 PARTICIPANT

Our Programmes

At Immerse Education we are proud to offer award-winning courses that stimulate participants academically, as well as prepare them for university and beyond. Whilst native-speaking students are welcome to enrol, each course is intended for students from around the world to develop their English language skills through content and language integrated learning, by developing their understanding of subject-specific content.

Our programmes combine Oxbridge teaching methodology with contemporary content and innovative workshops that develop key skills essential for future success.

ACADEMIC INSIGHTS

Our flagship course provides a unique experience to undergraduate life at one of the most famous universities in the world, with tuition from expert academics.

CAREER INSIGHTS

Our London course is designed for ambitious young students who want to explore their career paths whilst learning from top professionals working in fast-growing industries.

SYMPOSIA

Our symposia programmes are multi-disciplinary courses that cover a wide variety of material that has been carefully designed to stimulate and inspire. Programmes include Female Future Leaders and PPE.

ONLINE PROGRAMMES

Our award-winning programmes are available online, allowing students across the globe to instantly connect with their tutors from world-leading universities. These include Online Insights and Online Research Programmes.

University-level tuition in Cambridge, Oxford or Sydney

PROGRAMME HIGHLIGHTS

PERSONAL PROJECT

With the support of expert academic tutors, all participants on the Academic Insights programme complete a project during their time. Whether an essay, presentation or practical project, participants receive ongoing support before presenting their ideas to their peers at the end of the programme.

EXPERT TUTORS

Our tutors care about the academic futures of each participant. Each subject's syllabus is designed and taught by expert academics from top universities such as Cambridge and Oxford. Content is designed to introduce students to university-level subject matter, and inspire them to continue their studies after completion.

PARTICIPANT EVALUATION

Our tutors are passionate about the academic development of their students and therefore provide individualised written feedback and reflections after the programme. This provides insight into a participant's strengths, areas for further exploration, and recommended reading to further their academic curiosity.

Academic Insights

University-level tuition in Cambridge, Oxford or Sydney

PROGRAMME HIGHLIGHTS

DEDICATED MENTORS

Each participant is part of a mentor group (approximately 10 students) which forms their “family” for the course. Mentors are typically Oxford and Cambridge University students, and are there to ensure that participants are able to get the most out of the programme, and provide participants with additional support in their chosen subject so that they leave Immerse feeling confident about their academic future.

1:1 TUTORIALS

Participants receive weekly 1:1 tutorials with their class tutor, designed to ensure that each individual is progressing as desired, and that students can receive additional academic support in a private setting.

GUEST SPEAKERS

During their programmes, students will hear from fascinating and well-respected guest speakers. Ranging from politicians to philosophers, these sessions offer participants the chance to learn from inspirational and influential change-makers.

PRACTICAL LEARNING

One of the most popular aspects of the course, is the opportunity to receive hands-on, practical experience in their subject area. Examples include dissections in medicine, robotic arm building in engineering, or carrying out mock trials.

ACTIVITIES & EXCURSIONS

A key highlight of the Academic Insights summer course is its social programme, which allows participants to make friends with like-minded peers from around the world.

The social programme includes two excursions, on-site games, sports and more - as well as formal meals at different Oxbridge Colleges.

Unique Academic Enrichment Programmes

Academic Insights

University-level tuition in Cambridge, Oxford or Sydney

AGES 13-15 & 16-18

CAMBRIDGE LOCATIONS

QUEENS' COLLEGE

 Ages 13-15  July & August

Queens' College is one of the oldest and largest colleges of the university, founded in 1448 by Margaret of Anjou, and has some of the most recognisable buildings in Cambridge. The college spans both sides of the river Cam, with the world-famous Mathematical Bridge connecting the two sides.

CHRIST'S COLLEGE

 Ages 16-18  July & August

The college is described as an oasis of calm in the heart of Cambridge city, including beautiful herbaceous borders and tranquil gardens laid out over four courts. The college is noted for producing two of Cambridge's most famous alumni: John Milton, one of the greats of English literature, and renowned scientist Charles Darwin.

SIDNEY SUSSEX COLLEGE

 Ages 16-18  July & August

Sidney Sussex is located in the very heart of Cambridge. Founded in 1596 Sidney Sussex is a very well-kept secret – whether its Elizabethan brickwork, charming Cloister Court, the haunting Chapel, exquisite Rococo Hall, medieval cellars or beautiful ancient gardens – they all lie behind a rather self-effacing wall of Roman cement.

Academic Insights

University-level tuition in Cambridge, Oxford or Sydney

AGES 13-15 & 16-18

CAMBRIDGE LOCATIONS

ST CATHARINE'S COLLEGE

 Ages 16-18  July & August

Founded in 1473 by Robert Woodlark, the hall was incorporated by charter of King Edward IV: "a perpetual college ... forever to remain". The college, nicknamed "Catz", is located in the historic city-centre of Cambridge, and is notable for its open court (rather than closed quadrangle).

FITZWILLIAM COLLEGE

 Ages 16-18  July & August

Fitzwilliam began in 1869 as a non-collegiate institution, providing Cambridge education to undergraduates who were unable to afford membership of a college. In 1966, 'Fitzwilliam House' received its Royal Charter becoming Fitzwilliam College.

MAGDALENE COLLEGE

 Ages 16-18  August

Though dedicated to St Mary Magdalene, the College is actually pronounced "Maudlyn" to sound like the name of its founder, Lord Audley, in 1542. Magdalene College sits on the banks of the River Cam, providing a peaceful setting just a few minutes' walk from Cambridge city centre.

Academic Insights

University-level tuition in Cambridge, Oxford or Sydney

AGES 13-15 & 16-18

OXFORD LOCATIONS

LADY MARGARET HALL

 Ages 13-15

 July & August

Established in 1879, Lady Margaret Hall was the first women's college in Oxford, cementing its place in the history of Oxford University. The college sits just to the north of Oxford city centre, idyllically situated next to the University Parks.

BRASENOSE COLLEGE

 Ages 16-18

 July & August

Brasenose College boasts one of the most enviable locations in Oxford - right next to the famous Radcliffe Camera and a short walk from the city. Founded in 1509, famous alumni include world-leaders David Cameron (UK Prime Minister) and Malcolm Turnbull (Australian Prime Minister).

ST EDMUND HALL

 Ages 16-18

 July & August

Established around 1236, St Edmund Hall claims to be "the oldest academical society for the education of undergraduates in any university". It is a constituent college of the University of Oxford with an amazing location to explore the city centre.

Academic Insights

University-level tuition in Cambridge, Oxford or Sydney

AGES 13-15 & 16-18

OXFORD LOCATION

BALLIOL COLLEGE

 Ages 16-18  July

Founded in 1263, Balliol is one of Oxford's oldest colleges. It hosts the oldest academic institution in the English-speaking world on its original site, and it is almost certainly the oldest co-founded by a woman anywhere. In addition to its long history, it is also one of Oxford's largest colleges.

SYDNEY LOCATION

ST PAUL'S COLLEGE

 Ages 16-18  January

The University of Sydney, founded in 1850, is one of the most prestigious institutions in the world. It boasts of an exceptional range of disciplines in more than 400 areas of studies, and the institution is consistently regarded as a leader in education research, student experience and graduate employability.

Students will be allocated to a college based on their dates and subject choice.

If you would like to stay in the same location as a friend/sibling – please let us know and we will do our best to arrange this, where possible.

Males and females will have separate accommodation.

Wi-Fi is available in every college.

“ The academic sessions were incredibly informative, they covered all of the missing parts that I had not been taught in school and more. My tutor was incredible in explaining the tasks that she assigned us and ensured that we all understood the material perfectly. ”

— TEODORA 2022 PARTICIPANT

COURSE OVERVIEW

 Ages 16-18

 July

 London

 Max class size of 10

 40 hours of tuition

 Subject-based excursions

Interactive projects and workshops offer the opportunity to engage with professionals from some of our fastest-growing industries. Learning from those at the forefront of their field, participants receive practical feedback and personal career coaching to prepare them for future success.

Based in the heart of London, internationally renowned as a hub for innovation, culture and opportunity. Participants experience living in University of London accommodation, with everything the city has to offer on their doorstep.

Career Insights

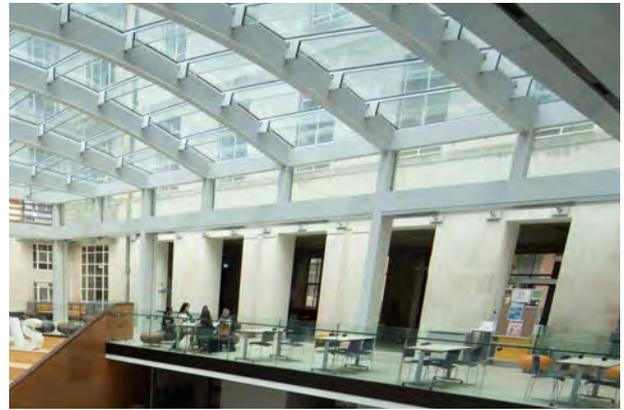

A unique experience of a future career

COURSE OVERVIEW

SUBJECTS AVAILABLE

Participants choose an area of focus for each two-week programme:

- Business Management
- Engineering
- Law
- Medicine
- Creative Writing & Film
- Architecture & Design
- Fine Art
- Game Design

LEARN DIRECTLY FROM INDUSTRY EXPERTS THROUGH REAL-WORLD PROJECTS

Explore concepts and share ideas in small groups of like-minded peers from around the world. In small class sizes, participants will be guided by experienced project leads who offer insight into their industry. Students are also exposed to learnings from industry-leading speakers.

LIVE IN THE HEART OF LONDON

With accommodation perfectly placed to explore the sights and sounds of our capital city, living in London means being connected with world-famous attractions and iconic landmarks.

A highlight of our programmes are the variety of activities and excursions scheduled to ensure students experience the city. These include visits to iconic sites in Bloomsbury like the British Museum, and boat tours across the river Thames.

PROFESSIONAL DEVELOPMENT THROUGH ESSENTIAL SKILLS WORKSHOPS

Our workshops are designed to offer the tools participants need to prepare for the next steps of their education and future goals. This programme bridges the gap between education and the world of work, offering an insight into the jobs in our industries now, and in the future.

These workshops explore a diverse range of topics geared to professional development, led by world-renowned education companies and entrepreneurs.

Career Insights

A unique experience of a future career

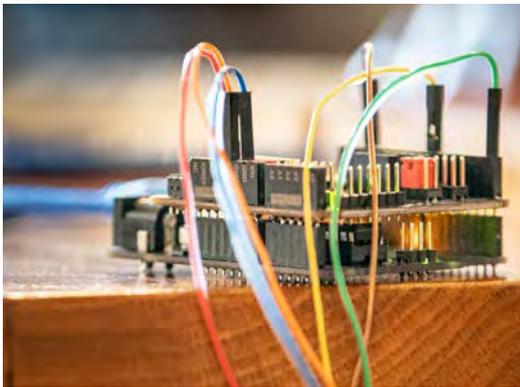

AGES 16-18

SUBJECTS AVAILABLE

BUSINESS MANAGEMENT

The world of business is evolving as trends and consumer demand change. Through project-based learning and practical study, explore the future of modern business, working to innovate and pitch a ground-breaking solution. Site visits have included Rise Barclays and the Bank of England Museum.

ENGINEERING

Covering a range of disciplines including mechanical and structural, this programme is designed to inspire the next generation of engineers. With a focus on cutting-edge technologies, participants explore various specialisms in this invaluable field. Participants also visit engineering feats like The Queen Elizabeth Olympic Park.

LAW

To study law is to learn about the ways in which we govern the personal, economic, social and political which impacts every part of our societies. Exploring a range of fields of law, participants can then focus on one area in their projects. They also have the chance to visit court sites like The Royal Courts of Justice.

INDUSTRY VISITS

We ensure that students not only partake in workshops that give them hands on experience with the industry they wish to pursue, but we also run visits to sites where cutting edge discoveries in those professions take place.

Career Insights

A unique experience of a future career

SUBJECTS AVAILABLE

MEDICINE

Explore real-world scenarios from the point of view of a General Practitioner. Participants work alongside other academically talented students on a journey of testing, research and diagnosis for a treatment plan. Talks from clinical experts from Great Ormond Street Hospital and The Old Operating Theatre are also experienced.

ARCHITECTURE & DESIGN

Participants have the opportunity to learn more about architecture from leaders in the field. Students will hear from speakers working at London's top firms, they'll get hands on with architectural modelling and experience the highlights of life as an architect.

CREATIVE WRITING & FILM

For students who have their heart set on writing screenplays for the big screen or television, this is the ideal Career Insights option. Participants find out exactly what it takes to write for the attention of a captive audience, and learn from professionals and writers who are working in the industry.

FINAL PRESENTATION

Over the course of two weeks, students develop a solution to a real-world problem in their field. At the end of the programme, participants present their work in an impressive London venue and receive detailed feedback.

Career Insights

A unique experience of a future career

AGES 16-18

SUBJECTS AVAILABLE

GAME DESIGN

The game industry is currently worth a staggering 95 billion, and according to studies it could be worth up to 169 billion by the end of 2025. For participants that are fascinated by the technology of gaming and VR, this course will shed more light into working within this exciting field.

FINE ART

This is a choice for the fine art or art history buff. Participants gain more knowledge of the industry and what it takes to work either as a creator or curator in the field. Students will learn from professionals in the fine art and design space who are either working in corporate settings or as independent creators.

GUEST SPEAKERS

Exposure to guest speakers stimulates the next generation of leaders and innovators. An opportunity to ask questions and be inspired, this is a perfect opportunity to hone and practise professional networking skills.

“ One of the main reasons I came on the programme was because I wasn't really sure where I wanted to go with medicine or if I even wanted to do it at all. I think it's given me a lot of clarity on what a career or even university education in medicine really looks like. ”

Female Future Leaders

Symposia: An all-female programme developing modern leadership skills

AGES 16-18

COURSE OVERVIEW

 Ages 16-18

 July & August

 University of Cambridge

 Max class size of 10

 40 hours of tuition

 Modern leadership skills

The Female Future Leaders summer programme offers a multi-disciplinary exploration of leadership for engaged and motivated young women. The programme focusses on a range of skills that can provide success in STEM, business or politics pathways.

Over the course of two weeks, you will explore a broad range of subjects at the university level, designed to support young women to build the confidence and skills of future leaders. Tutors will use elements of politics, business, law and science, through a series of interactive lectures and workshops, to develop each student's leadership skills.

Female Future Leaders

Symposia: An all-female programme developing modern leadership skills

AGES 16-18

ACADEMIC CONTENT

ALL-FEMALE PROGRAMME

Only female students may enrol on this 'all-girls' programme, with leading female academics providing an insight into leadership from a woman's perspective.

LEAD KEY SKILLS

Developing effective leadership skills can open many pathways and lead to greater opportunities for success. To aid in this, Female Future Leaders is based on the Immerse LEAD Key Skills.

Centred around the 4 main areas of Leadership, Emotional Intelligence, Adaptability and Development, the course outcomes aim for personal growth in areas such as:

- Public Speaking
- Motivation
- Teamwork
- Negotiation
- Critical Thinking
- Debating

TEACHING STYLE

Tuition is provided in a variety of ways:

- Classroom-based seminars
- Guest speakers
- Small group projects
- Interactive lectures

 July

 University of Cambridge

 Max class size of 10

 40 hours of tuition

 Critical thinking skills

Our Philosophy, Politics and Economics (PPE) programme is designed to ensure that students develop transferable critical thinking and analytical skills. With the course, students also learn more about how institutions and society is set up.

The aim of this programme is to equip students with the skills they need to succeed in a variety of career paths and future academic pursuits.

Students will develop essential new skills that will improve their logical rigour and offer them with a mental tool kit to approach future academic and career challenges.

PPE

Symposia: Oxbridge-level exploration of Philosophy, Politics & Economics

ACADEMIC CONTENT

PPE PROGRAMME LEARNING OBJECTIVES

These combined subjects are extremely important to study as they help students model problems that arise in society and institutions. Participants will learn to evaluate challenges, and assess what is politically feasible and morally desirable between a set of solutions.

TOPICS COVERED

The study of PPE is recognised by employers for equipping students with a portfolio of academic and transferable skills, enabling them to carry out stimulating and rewarding careers throughout the world.

A sample of subjects that are covered on our programme include:

- Philosophy: Plato's Republic
- Politics: British Politics and Government
- Economics: Development of the World

TEACHING STYLE

Tuition is provided in a variety of ways:

- Classroom-based seminars
- Guest speakers
- Small group projects
- Interactive lectures

For more detailed syllabus information and course content, please visit:

www.immerse.education

“ This experience has felt like a dream, and although it is coming to an end, I am more determined about achieving my dream to study at the University of Oxford. ”

— NOORA, 2022 PARTICIPANT

Online Programmes

Award-winning programmes, now available online

As technology advances and the world becomes more connected, virtual teaching has become more and more popular with students of all ages.

Our online courses are designed to reflect the style of teaching on our residential summer schools, which in turn is based on Oxbridge methodology. Students are introduced to advanced academic content which stimulates and inspires them to develop their understanding of university-level academic content.

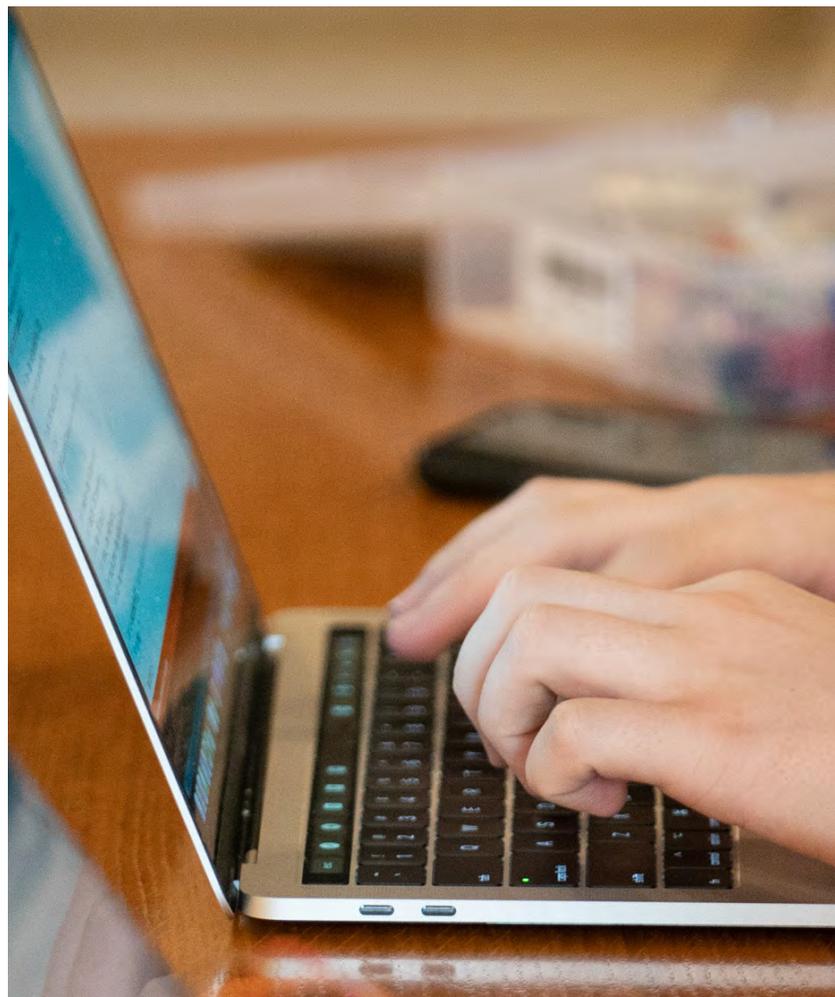

EXPERT TUTORS

The teaching faculty on our online courses are Oxbridge tutors who teach on our residential programmes, ensuring you receive the same high-quality teaching, regardless of the type of programme.

CONNECT FROM ANYWHERE IN THE WORLD

Our programmes use premium e-learning software that only requires a stable internet connection.

Courses also accommodate for students of different time-zones, meaning all nationalities can attend.

Online Insights

Virtual courses for students around the world

AGES 13-15 & 16-18

COURSE OVERVIEW

 Ages 13-15 & 16-18

 Winter, Spring & Summer

 Online

 Maximum class of 10

 40 hours of academic contact time

 Morning & afternoon classes cater for all time-zones

Online Insights transforms the highlights of our flagship 'Academic Insights' summer school onto a premium e-learning platform.

The virtual programme will lead students through an unparalleled educational experience. Participants will focus on advanced content and develop both the expertise and enthusiasm to plan for an academic future with confidence.

Students receive a combination of subject-based tuition, one-to-one tutorials, future skills workshops and social activities with students from around the world.

AGES 13-15 & 16-18

ACADEMIC CONTENT

SUBJECTS AVAILABLE

The most popular subjects on our residential programmes are available online:

- Architecture
- Artificial Intelligence
- Biology
- Business Management
- Chemistry
- Combined Sciences
- Computer Science
- Creative Writing
- Earth Sciences
- Economics
- Engineering
- English Literature
- History
- International Relations
- Law
- Mathematics
- Medicine
- Philosophy
- Physics
- Psychology

TEACHING STYLE

Online Insights is designed to emulate the experience of academic seminars in a university environment. Aside from daily contact with their tutors, participants will also meet current undergraduates from Oxbridge universities during activities, learn from visiting expert guest speakers, and engage in interactive skills-based workshops.

1:1 TUTORIALS

Whilst the majority of teaching is delivered via group classes, participants also receive two 30-minute individual tutorials from their tutor, at the beginning and end of this week.

This time is dedicated to ensuring each student is progressing at the same pace as the rest of the class, as well as to discuss future academic goals and interests.

SOCIAL PROGRAMME

A key highlight of our residential programmes is the opportunity to socialise and network with other students from around the world.

Online Insights includes a 'social hour' at the end of each day, which allows participants to get to know their classmates better, through a variety of online activities and games.

Online Research Programme

Develop a university-style research project with a personal tutor

AGES 13-15 & 16-18

COURSE OVERVIEW

 Ages 13-15 & 16-18

 Year-round

 Online

 Bespoke 1:1 syllabus

 5 hours of 1:1 tutorials per week

 Develop university-level skills

The Online Research Programme is designed for students who want to enhance their personal research and study skills in preparation for university, whilst also developing deeper knowledge in their chosen field. Participants can choose to study a unique topic from the range of subjects that we offer, and select to be taught either by an Oxbridge or Ivy League tutor.

Led by their personal tutor, students undertake a research project assessed at university-level and receive daily 1:1 supervision in addition to academic skills classes.

This course is ideal for students wanting to gain invaluable experience developing projects at university, whilst also understanding the demands of an Oxbridge or Ivy League degree.

Online Research Programme

Develop a university-style research project with a personal tutor

1:1 PERSONALISED LEARNING

FROM OXBRIDGE OR IVY LEAGUE TUTORS

Due to the bespoke nature of the Online Research Programme, students receive a personalised teaching timetable and syllabus, ensuring each student experiences a tailored tuition package that caters for their level and academic goals. A wide choice of subjects are available, including but not limited to:

- 3D Animation
- Architecture
- Artificial Intelligence
- Biology
- Business Management
- Chemistry
- Computer Science
- Coding
- Creative Writing
- Economics
- Encryption & Cybersecurity
- Engineering
- English Literature
- Game Design
- History
- International Relations
- Law
- Mathematics
- Medicine
- Nanotechnology
- Politics & Debate
- Philosophy
- Physics
- PPE
- Psychology

RESEARCH PROJECT

A key aspect of the course is the development of an undergraduate-level academic research project, guided by a personal tutor from a prestigious university.

Depending on the subject, this project can either take the form of a 2,000 - 10,000 word essay (varies by programme duration), a practical creation, or an interactive presentation.

DEVELOP ACADEMIC SKILLS

In addition to the academic research project, students will also receive tuition in areas such as personal study, academic writing and independent research. These are transferable skills which are vital for success in higher education, and students relish the opportunity to explore a topic of their interest.

A Proven Student Process

1. SUCCESSFUL ENROLMENT

Upon enrolment we offer private airport transfer services to ensure ease of arrival to your college. We provide rapid support to address any queries participants have about the programme.

2. PRE-PROGRAMME INDUCTION

Before every programme starts, we collect all of the required information from every student which will enable them to have the best experience possible. This includes personal information as well as academic information which we pass on to their tutor for review. We also offer visa letters for eligible students.

3. PROGRAMME OVERVIEWS

We provide students with the academic and enrichment programme overviews, including information about where they'll be staying and important procedures.

4. COURSE OVERVIEWS

A course and tutor overview is shared for participants' academic sessions. We provide high calibre, engaging pre-programme content to enable all students to familiarise themselves with course content before they attend the programme.

5. THE IMMERSE EXPERIENCE

Participants meet peers from around the world, take part in their academic sessions, enjoy the unforgettable social experiences, and prepare personal projects to complete their academic journey. They also receive individualised feedback from their tutors.

6. GRADUATION

This is an opportunity for our students to celebrate their accomplishments over the past two weeks and receive their Immerse Education graduation certificate digitally or in front of their peers and college staff.

Frequently Asked Questions

WHO ARE THE ACADEMIC TUTORS?

All our tutors are experts in their field and are experienced in teaching undergraduate students. They are current or previous teaching members of top UK universities, predominantly Cambridge and Oxford, and have been carefully selected for their ability to convey their passion and enthusiasm for the complexities of their discipline, in a style that is accessible to all.

CAN I STUDY MORE THAN ONE SUBJECT AT ONCE?

The purpose of Immerse is to provide an in-depth exploration of one discipline through a variety of topics so that participants can get a real sense of what it would be like to study their subject at a more advanced level; therefore we do not offer combined subjects. Participants are able to schedule formal meetings with any of the mentors on their programme, who represent a diverse range of disciplines from Cambridge and Oxford universities, where they can gain insight into a different subject.

IS IMMERSE EDUCATION PART OF OXFORD/CAMBRIDGE UNIVERSITY?

Immerse Education is not affiliated with Cambridge University nor Oxford University.

WHAT WILL I DO OUTSIDE OF ACADEMIC SESSIONS?

Our academically rigorous summer programmes are carefully balanced with a range of social and cultural opportunities for participants to meet other students from all over the world and form new friendships to last a lifetime. Our 'Immersed' alumni list punting and the weekend excursion to London as two of their favourite activities.

As well as these scheduled events, participants have free time in which to explore their local surroundings, relax with fellow participants, or take some time for private study or to work on their personal project.

WHAT IS YOUR COVID-19 POLICY?

In spring 2020, the world changed with the outbreak of the coronavirus pandemic.

We are regularly checking government advice, and any residential programme will take place in line with official health and safety guidelines.

This prospectus was published in September 2022, so please visit our website for our most-up-to-date policy.

CAN YOU CATER FOR DIETARY REQUIREMENTS?

Yes, the on-site catering teams can cater to most medical and religious dietary requirements. Please inform us of any dietary or medical conditions well in advance of the programme so that we can ensure that all relevant staff members are aware.

CAN YOU HELP ME GET FROM THE AIRPORT TO THE COLLEGE?

We offer a shared airport transfer service for participants travelling from London Heathrow Airport, and back again at the end of the programme. This is a chaperoned service by Immerse Education which will be available to request after enrolment for an additional fee.

For students arriving at other airports we are happy to provide further advice regarding arrivals and departures from the summer programmes.

WHEN IS THE ENROLMENT DEADLINE?

Places on our programmes are awarded on a first come, first served basis with class sizes capped at a maximum of 10 participants. We therefore strongly recommend enrolling early in the academic year to avoid disappointment.

HOW DO I ENROL?

To enrol please visit www.immerse.education/enrol/ and complete the participant information there. A £995 deposit is payable at the point of enrolment and your place is secured once you receive a formal confirmation of enrolment from us.

MY QUESTION ISN'T LISTED HERE

Please get in touch with enquiries@immerse.education and a member of our team will be very happy to help.

Accreditations and Awards

QUEEN'S AWARD

The Queen's Award for Enterprise is the UK's most prestigious business award.

Immerse Education was awarded the Queen's Award for Enterprise. To be recognised by Her Majesty is a huge honour and a testament to the unique, educational experiences we provide to students across the world.

BAC

Immerse Education is accredited by the leading mark of educational quality for the sector.

For over 25 years the British Accreditation Council (BAC) has been responsible for setting educational quality standards within the independent further and higher education sector. The BAC requires a rigorous on-site inspection that covers all aspects of the student experience including teaching, learning, health and safety and welfare.

We are proud to display this badge of quality.

EDUCATION INVESTOR AWARDS

Immerse Education is proud to be selected as a finalist in the Education Investor awards.

We have been recognised as a notable Pathway Provider for our programmes, under the Education Provision category. We are delighted to be nominated among other leading brands.

The Education Investor Awards has been celebrating the achievements in the business of education for 12 years. Through their initiatives they have raised over £400,000 for charities.

ROSPA

Immerse Education is a proud member of ROSPA

Accidents don't have to happen and Immerse Education is passionate about ensuring that our participants have a rewarding, enjoyable and safe experience on our programmes.

The Royal Society for the Prevention of Accidents (RoSPA) works tirelessly to change both legislation and attitudes surrounding accidents and has been instrumental in shaping our society for the better.

BRITISH YOUTH TRAVEL AWARDS

Immerse Education was fortunate enough to be recognised as a finalist in the Best Educational Product category. Through delivering immersive, challenging academic programmes designed for ambitious youth from around the world, Immerse Education has emerged as a leader in the field.

The British Youth Travel Awards are the sector's opportunity to reward high achievers, gain recognition, and raise the profile of the work and individual successes of organisations engaged in youth, student and educational travel to, from and within the UK.

GEMS SCHOOL PARTNERSHIP

GEMS has selected Immerse Education to help their students gain experience of what it's like to study at university level, with award-winning academic programmes held in inspiring locations across the UK, such as University of Cambridge and University of Oxford.

If you're a student at a GEMS school, visit your UniConnect platform to find out more.
